

# SCIENCE EXPLORATIONS

Animals, Adaptation, and the Galápagos Islands  
Discover with Darwin

## Level 1: Investigation

### The Environment

How would you describe the environment? What might be some difficulties in living there?  
What might be some benefits?

### Iguanas

What kinds of characteristics make iguanas suitable for living on the Galápagos?

### Penguins

Most penguins live in cold climates.  
How are these penguins suited to their environment?
