

SCIENCE EXPLORATIONS

Animals, Adaptation, and the Galápagos Islands
Discover with Darwin

Level 3: Investigation

Introduced Animals

What are some of the animals that are not native to the Galápagos and how do they affect the animals that are native?

Tourism

How does tourism affect the Galápagos?

If you worked at the Charles Darwin Foundation, a research center and rescue station on one of the Galápagos Islands, what kinds of questions would you explore?
