

Teachers—inform parents about Click! by sending home a copy of this letter.

# Dear Parent,

It's the best of the best this month! The Scholastic May Click! Interactive Learning Club catalog features the **best picks of the school year**. It's filled with 73 of the **top CD-ROMs, DVDs, console and other multimedia learning products for students in grades PreK-8**. Please take some time to look over the flyer I sent home with your child.

Every month Click! editors review and approve each title so you can be sure you are getting high-quality products for your family; this month the editors compiled the year's bestsellers for this special flyer. So that means **the titles in the May catalog are kid, parent and teacher favorites**. They will help your child **have fun while building math, reading, early learning, science and other essential skills**. You'll find characters and brands you know and trust like Dora the Explorer™, JumpStart®, The Magic School Bus™, Oregon Trail® and more.

Just like every Click! offer, shopping from the May catalog will save you time and money. You can **save up to 75% with prices starting at just \$4.95**. Plus, your order is delivered direct to our classroom—with **no shipping and handling charges to pay**. Every title comes with **Scholastic's Unconditional Guarantee**; if you are not satisfied for any reason, simply return it for a full refund with no questions asked.

Another great advantage to ordering from Click! is Bonus Points. Every title you order earns our class **Bonus Points which can be redeemed for free books, software and other educational resources for the classroom**. So ordering benefits your child as well as our classroom and our school.

There's another convenient way for you to place your Click! orders—online. You pay by credit card, so there's no need to write a check or send cash to school. You can order anytime right up until the online order due date, and you'll receive an email confirmation of your order. The site is private and secure. To access it, go to the web address below and enter the personalized Class User Name and Password I set up:
