

Interactive Phonics Booster Books: System Requirements

Macintosh Computers: Standalone Use

To use Interactive Phonics Booster Books software on a standalone Macintosh computer, you will need:

- ★ A PowerPC or faster processor
- ★ System 7.5.3–9.2.1
- ★ At least 16 megabytes of available RAM
- ★ At least 20 megabytes of available hard disk space
- ★ A 640 x 480 monitor that can display 16-bit/thousands of colors
- ★ A 4X or faster CD-ROM drive
- ★ Internal or external microphone (optional)
- ★ Headphones (optional but strongly recommended), or internal or external speakers

Please note the student recording space requirements listed below. These numbers assume every student records every page of the book, and uses each page's full ninety seconds of recording time. (A ninety-second recording takes up 2.2 MB of space.)

	No. of Students	Short Book	Space Needed	Average Book	Space Needed	Long Book	Space Needed	All Books Recorded
Stage A	10	13 pp.	286 MB	19 pp.	418 MB	34 pp.	748 MB	14.3 GB
	20		572 MB		836 MB		1496 MB	28.7 GB
	30		858 MB		1254 MB		2244 MB	43.1 GB
Stage B	10	23 pp.	506 MB	29 pp.	638 MB	49 pp.	1078 MB	14.5 GB
	20		1012 MB		1276 MB		2156 MB	29.1 GB
	30		1518 MB		1914 MB		3234 MB	43.7 GB

Macintosh Computers: Network Use

To use Interactive Phonics Booster Books software on a network of Macintosh computers, you will need:

Workstations

See the requirements for standalone use on page 1.

Server

- ★ 64 megabytes of available RAM
- ★ 4 gigabytes of available hard disk space recommended (see the table on page 1 for information about storage space needed for student recordings)
- ★ 10 Base-T or faster network connection
- ★ 350-megahertz G3 or faster processor (recommended for best performance)
- ★ AppleShare IP 6.2 or higher, or OS X Server (recommended)

Windows Computers: Standalone Use

To use Interactive Phonics Booster Books software on a standalone Windows computer, you will need:

- ★ A Pentium or faster processor
- ★ Windows 95, 98, 2000, NT, ME, or XP
- ★ A Windows-compatible, 16-bit sound card
- ★ At least 16 megabytes of available RAM
- ★ At least 20 megabytes of available hard disk space (see the table on page 1 for information about storage space needed for student recordings)
- ★ A 640 x 480 or higher resolution video card that can display 16-bit/thousands of colors
- ★ A 4X or faster CD-ROM drive
- ★ Internal or external microphone (optional)
- ★ Headphones (optional but strongly recommended), or internal or external speakers

Windows Computers: Network Use

To use Interactive Phonics Booster Books software on a network of Windows computers, you will need:

Workstations

See the requirements for standalone use on page 3.

Server

- ★ 64 megabytes of available RAM
- ★ 4 gigabytes of available hard disk space recommended (see the table on page 1 for information about storage space needed for student recordings)
- ★ 10 Base-T or faster network connection
- ★ 400-megahertz Pentium II or faster processor (recommended for best performance)
- ★ Windows NT Server, Windows 2000 Server, or Windows XP Server (recommended)
