

# Organized Outlines

**Y**our Mission: Organize your research.

A research grid can help you organize facts about your research topic. Fill in the sections below using resources of your own, and answer the questions on the grid.

1. Topic: Select a topic you care about.
2. Research Questions: Focus your report by asking questions you want answers to.
3. Information: Fill in the blank spaces with information that answers your questions.
4. Sources: Record sources for your bibliography and refer to The Best Bibliography worksheet for how to create the best bibliography.
