

Max's Math Adventures

Take some time to solve the rhyme

Name: _____

Date: _____

Subtraction Square Dance Sing-Along Jubilee

Swing your partner
Seven times 'round.
Take two away
Then fall to the ground.
Tell what's left
With an oinking sound:
OINK! OINK! OINK! OINK! OINK!

Stomp your foot
Nine times on the floor.
Take three away and
Count up the score.
Then act like a lion and
Let out a roar!
ROAR! ROAR! ROAR! ROAR! ROAR! ROAR!

Clap your hands
Ten times in the air.
Take away four then
Stand on your chair.
Show what's left
As you growl like a bear.
GRRR! GRRR! GRRR! GRRR! GRRR! GRRR!

Flap your arms
Twelve times like a duck.
Take away five,
Go ahead, good luck.
Honk out the answer
Like a garbage truck:
HONK! HONK! HONK! HONK! HONK! HONK!

Hop eight times
Like a kangaroo.
Take away four
Then touch your shoe.
When you know the answer
Yell it out in a "yahoo":
YAHOO! YAHOO! YAHOO! YAHOO!

Make up a verse
To this song today.
Think of a number
Then take something away.
Do it soon —
Don't delay!
HOORAY! HOORAY! HOORAY! HOORAY! HOORAY!

Hello, Max here —
Your host for the big Jubilee!
If you like subtraction, or sing-along action,
Then join in with Ruthie and me.

Subtraction Square Dance Sing-Along Jubilee

Max's Challenge:

Make up your own "subtraction" verse to add to Max and Ruthie's song. Fill in the empty speech bubbles next to each animal to show how many sounds are left over after some are taken away.

Write Your Verse here:
