**Engaging Literacy Solutions for
After School and Out-of-School Time Programs**

Dear After School Professional

Literacy is the cornerstone of a child's intellectual, personal, and cultural growth. Scholastic After School Learning strives to reinforce your efforts to support literacy and learning during out-of-school hours. As we celebrate our 90th anniversary, our mission remains to provide access to the best books, resources, and services to address all children's literacy needs. The more contact children have with books, the better readers they become.

Our new FLASH Literacy Centers include updated lessons that reinforce what is learned in the classroom while providing opportunities for children to apply literacy skills in fun and exciting new ways. We've also added a number of STEM-aligned resources to give students the opportunity to develop an interest in science and math during after school hours.

Every day after-school educators are transforming the lives of their students, and we thank you for all that you do to help children achieve their full potential. Together we will continue to find new ways to engage and motivate students, to provide practical professional development support and training tools for your staff, and to enhance students' reading and critical thinking skills so they are better prepared in the classroom as well as in life.

Sincerely,

Karine Apollon
Vice President and General Manager
Literacy Initiatives
Scholastic Classroom and Community Group

“Research suggests that **after-school programs with targeted academic components**, including well-defined curricula, structured approaches, and regular implementation, **are more likely to result in academic improvements** for participants.”

Daily Objectives

Materials List

Vocabulary List

Are You quite polite?
By Alan Katz and David Catrow

Before Reading

Build Background Knowledge

1. Discuss what children know about being polite: What do the children consider polite behaviors? Then ask them to name the opposite of being polite (being rude). Invite children to describe times they witnessed rude behavior. Show them the cover of *Are You Quite Polite?* to spark discussion!
2. Write four category headings on the board:
 1. Keeping Neat and Clean
 2. Manners for Special Occasions
 3. Getting Along with Others
 4. Table Manners
 - Ask children to fold a sheet of paper in half, then in half again, to form four squares. Have children unfold the paper and write one of the chapter headings in each square. Help younger children complete the labeling. Explain that once you read them all 14 poems, they'll work with a partner to categorize the poems into one of these four categories...suggest they think about this challenge as they listen to the poems.

Teaching Tip
Each of the poems in this book has been written to the tune of a specified song. These songs are traditional and can be found easily on the Internet. You may want to prepare by bookmarking or downloading/hearing the songs before the children arrive.

During Reading

1. Start a Table of Contents for "Are You Quite Polite?" on chart paper. Remind children that a Table of Contents is a list at the beginning of a book that tells readers how to find material. It lists the titles and page numbers for different text sections. Say: This book is made up of 14 different rhyming poems. Each poem can be sung to the tune of a well-known song. As we learn the title of each poem and each song, let's add them to this Table of Contents along with a page number—that will make it easier for us to use this book.
2. Read the title of the rhyming poem on page 3, "Drinkin' at the Fountain." Examine the illustration on page 2 with children, encouraging them to call out their interpretations of what's happening. Read the poem and confirm children's answers: Where do you think this scene takes place? (school). What are the clues? (boy has a backpack, school lockers and school clock)

Discussion Starters

Explore and build background knowledge prior to reading

Reading Prompts

Encourage discussion with scripted questions

Hands-on Learning

Promote additional student inquiry and connect to other curricula with after-reading activities

Make the Classroom Bigger.

With research revealing the critical importance of ongoing parental and community literacy support, extending the classroom beyond its four walls and into a child's life is more important than ever.

That is why Scholastic has launched:

Scholastic FACE—Family and Community Engagement

FACE brings together key resources that support reading and learning outside of school. With a focus on:

- ✓ **Early Literacy**
- ✓ **Family Involvement**
- ✓ **Access to Books**
- ✓ **Extended Learning**
- ✓ **Mentoring Partnerships**

FACE helps parents, educators, and communities create what we all want most: an environment that extends learning beyond the classroom and supports our children's journey to success.

For more information on how Scholastic FACE can support your school, district, or literacy program, please contact a Scholastic Literacy Specialist at 1-800-387-1437.
