any *Shockwave*
small-group pack!**

Shockwave is a series of informative, high-interest books that make reading across the content areas accessible for all students, including striving and reluctant readers. Paired readings across science and social studies topics help students transfer content-area topics from one subject to the other and from one book to another. Each book is written 1 to 1.5 grades below level and includes embedded, point-of-use comprehension and vocabulary prompts, as well as scaffolded instruction strategies.

Each *Shockwave* small-group pack includes 8 books (2 titles; 1 social studies, 1 science, 4 copies each) that are perfect for sparking dynamic student discussion.
