

Workshop 5: Secrets of the Mummy's Tomb**Reading 2 Project: The Gory Art of Mummy Making**
Mummy Manual

Don't get too wrapped up in this project!

Project: Write a manual about how to make a mummy.

Procedure**1. Identify key information.**

Review the magazine article on pages 112–114 of your *rBook*. Take notes on how to make a mummy.

2. Write and draw.

As you read, write and number each step on a different sheet of paper. Here is an example:

1. Take out the brain, eyes, liver, and lungs.
2. Insert a hook into the nose to pull out the brain

Draw a picture for each page.

3. Create your manual.

- Make a cover that grabs attention. Think of a good title, like “The Beginner’s Guide to Mummy Making.”
- Use colored pencils and markers to bring your pictures to life.
- When you’re done, place all the pages in order. Put the cover on top. Then staple the pages together.

4. Present.

Share your manuals with classmates. Who has the best title? Who has the grossest drawings? Take a vote!
