

End-of-Sale Announcement: *Scholastic Reading Counts! (SRC!) v3.0.3* and earlier versions

From December 1, 2008, in accordance with the Software Life Cycle Policy, Scholastic will no longer sell or make available new releases of *SRC! v3.0.3* and earlier versions.

This will allow us to focus our resources on enhancing our products and providing support for more current versions, which are used by the vast majority of Scholastic customers. The result: a better customer experience for thousands of Scholastic customers.

This announcement will affect customers as follows:

- If you have an active Product Support Plan for *SRC! v.3.0.3* and/or earlier versions that extends past December 1, 2010, your Product Support Plan will be canceled and become inactive on December 1, 2010. Between December 1, 2008, and December 1, 2010, you will need to renew your Product Support Plan as needed to maintain the services outlined in your Product Support Plan. To continue receiving support after the plan's expiration date, you will need to upgrade to a supported version of *SRC!* and purchase a new support plan.

If you are using any version of any of these products as part of an adoption or special purchase arrangement, please check the End of Life policy at:
