

Scholastic's ReadingLine™ Kits are the perfect choice for Teachers using Harcourt *Trophies**

Here's why:

Teachers know that within the core basal program, there are never enough titles, and variety of text at every instructional level for students to remain engaged and challenged!

Teachers know that a skill needs to be repeated over 50 times before a student gets to mastery!

Here's what:

Scholastic's ReadingLine Kits offer 68 leveled titles to extend and expand your teaching library with decodable books.

Scholastic's ReadingLine Kits offer teacher's guides bursting with fun ideas that support Harcourt's instruction and extends beyond it.

Scholastic's ReadingLine Kits offer additional materials for remedial instruction and re-teaching ideas to address all learning styles.

Here's how:

Scholastic's ReadingLine Kits offer teachers step by step instructional kits grouped around a different literacy cornerstone; Sound and Letters, Phonics, and Vocabulary, allowing teachers the flexibility to supplement according to their classroom's needs.

When aligned side by side, Scholastic's ReadingLine and Harcourt work together to give you what you need to individualize your instruction with enough materials to support the instruction through to mastery for every student.

Scholastic's ReadingLine supports Harcourt as it introduces the sounds of the alphabet in giving students a second chance or further practice with this critical skill without adding any extra work to the teacher!
