Benefits for:

TECH COORDINATORS

DISTRICT ADMINISTRATORS

TEACHERS

ENTERPRISE EDITION

BENEFITS FOR THE

Tech Coordinator

- Industry standard technology
- Easier setup and maintenance
- Advanced Import/Export
- A shared database under a strong component-based architecture

Roster

Set up and manage the system

Import/Export

- Import student data from your SIS
- Import from other SAM instances
- Export to your data warehouse
- Export to other SAM instances for data aggregation

Set up district, school and classes

- Add a school/teacher/class/student in one click
- Deactivate a cohort
- Delete a cohort
- Manage licenses and enrollment
- Manage class rosters

Manage privileges

- Assign user account permissions

Manage applications

- Set up application for entire school, class or group in one step

Reports

Access reports for the district, school, classes or students

Use reports

- Access meaningful technical reports
- View cross-product usage summaries
- Export meaningful data
- Run reports for district and school administrators and teachers

Resources

View and download teaching resources and other support materials

Find the right resource

- View resources available to teachers
- Access professional development and administration resources
- Find research papers and research tools to conduct your own effectiveness research

BENEFITS FOR THE

District Administrator

- Your dashboard for managing reading achievement
- Intuitive navigation
- Data aggregation
- District-wide reports
- Demographic grouping and filtering
- Monitor Adequate Yearly Progress (AYP)

Roster

Set up your school or district to use Scholastic products

One step to...

- Set up custom state, district or local groupings for AYP reporting
- Add a school, class, teacher
- Import/export data
- Manage licenses and enrollment

Managing applications

- Set up application for entire district, school, class or group in one step

Reports

Access reports across district to monitor Adequate Yearly Progress

Browse and adjust

- View district-level reports
- Drill-down to student reports
- Advanced disaggregation by AYP criteria
- Advanced filtering by AYP grouping

Use reports

- Monitor AYP
- Access reports in PDF format to file or share with teachers, parents, or other administrators
- Save reports to your personal computer
- Aggregate and disaggregate performance data to identify district needs

Get support on how and when to use reports

- Get help on how to use the report
- Get help on how to follow up
- Quick access to recent reports
- Access resources that address skills outlined in the report

Resources

View and download teaching resources and other support materials

Finding the right resource

- View resources available to teachers
- Access professional development and administration resources
- Find research papers and research tools to conduct your own effectiveness research

BENEFITS FOR THE Teacher

- **Your dashboard for managing reading achievement**
- **Intuitive navigation**
- **Improved reporting**
- **Searchable database of resources**
- **Resources accessed from reports**

Roster

Set up your classes to use Scholastic programs

Fast one-step student management...

- Add and enroll a student or group of students
- Set up *READ180* and other Scholastic programs
- Add, drop or transfer your students in classes and groups

Easy Program Settings

- Set up application for entire class, group, or for a specific student in one step
- Access to grading tools

Reports

Access recommended reports for each student, group or class

Useful reporting tools

- Generate reports and drill down to each class, group and student
- Customize reports on screen by sorting data and changing the time period

Print and save reports

- Access reports in PDF format to file or share with students, parents or administrators
- Save reports to your personal computer

Use prescriptive tools

- Quick access to recent reports
- Link directly from reports to a library of teaching resources
- Access the data you need to differentiate instruction

Resources

Find the right resources for differentiating instruction

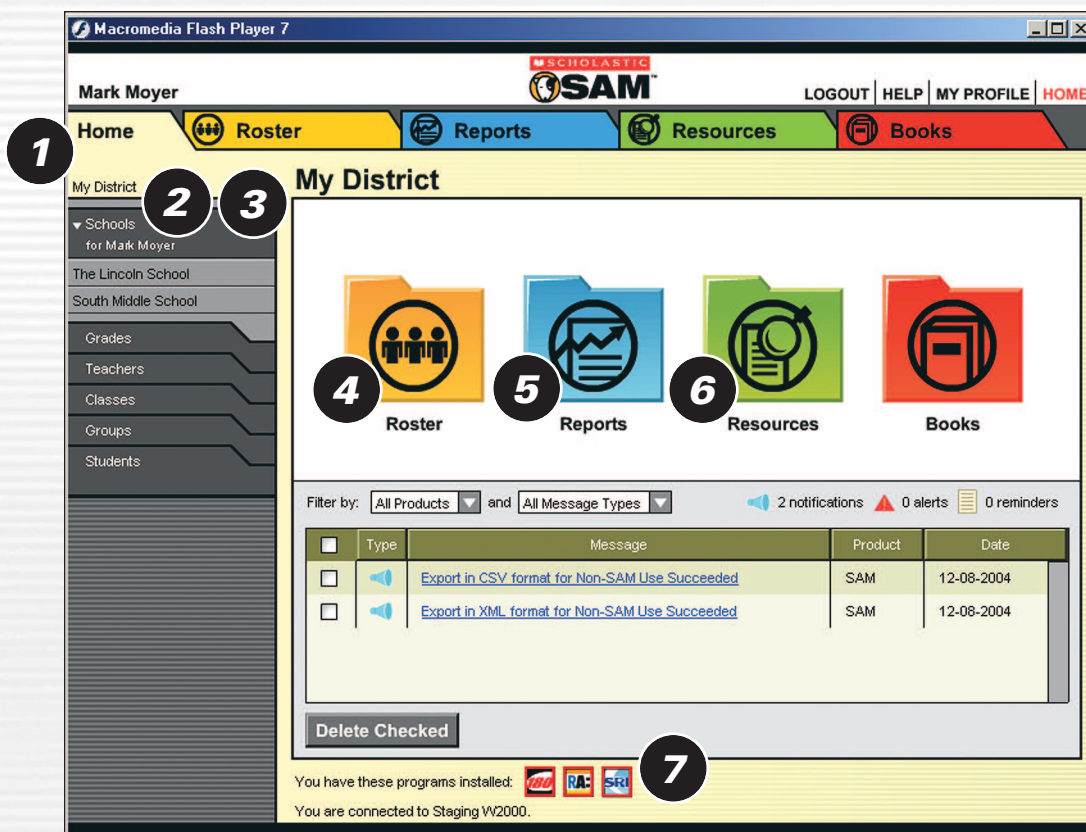

Finding the right resource

- Use a simple search feature to find resources quickly
- Browse resources based on product, skill, grade, and domain
- Access professional development resources

Using resources

- Print lesson plans to use in Small- or Whole-Group Instruction
- Print worksheets to hand to students for homework
- Access parent material

A powerful management system based on industry standard technology

The screenshot shows the SAM web interface in a Macromedia Flash Player 7 window. The user is Mark Moyer. The interface includes a navigation bar with Home, Roster, Reports, Resources, and Books. A sidebar on the left shows a tree view for 'My District' with options for Schools, Grades, Teachers, Classes, Groups, and Students. The main content area features four large icons for Roster, Reports, Resources, and Books. Below these icons is a filter section and a message table. At the bottom, there are links for installed programs and connection status.

Type	Message	Product	Date
<input type="checkbox"/>	Export in CSV format for Non-SAM Use Succeeded	SAM	12-08-2004
<input type="checkbox"/>	Export in XML format for Non-SAM Use Succeeded	SAM	12-08-2004

TECH COORDINATOR

Reduced Total Cost of Ownership

- 1 Industry standard technology
- 3 Higher concurrent usage
- 4 Advanced import/export
- 4 Easy installation and upgrades
- 7 Common database, component-based architecture

DISTRICT ADMINISTRATOR

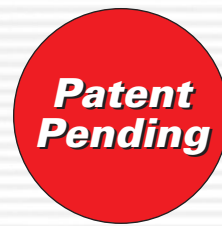

District-level functions

- 2 Data aggregation
- 5 District reports
- 5 Demographic grouping

TEACHER

Data-driven differentiated instruction

- 5 Improved drill-down reporting
- 5 Resources and standards accessible from reports
- 6 Searchable database of resources
