

5 Simple Steps to Get Started with Scholastic Hosting Services

STEP 1

Perform and Pass the Scholastic Hosting Tech Audit

Your Account Executive will schedule a tech audit to ensure your district's infrastructure is sufficient to use Scholastic Hosting Services. You will be asked to complete the tech audit online and return to Scholastic for review and next steps.

STEP 2

Review and Execute Scholastic Hosting Services Agreement

Scholastic will provide you with the Scholastic Hosting Services Terms and Conditions agreement. Your Account Executive will provide details on how to execute and return to Scholastic.

STEP 3

Send Purchase Order

Your Account Executive will work with you to ensure all the necessary items are included on your purchase order:

- Enterprise Program Licenses (if additional needed)
- ISBNs for Scholastic Hosting Services
- Scholastic Hosting Services set-up fee (if district is new to the Hosting environment)
- Any additional services needed

STEP 4

For Existing Customers Only: Data Prep

Existing Enterprise customers can back up their local SAM server, then post your database backup onto Scholastic's FTP site, using 256-bit SSL encryption. A Scholastic Technician will import the data into a Scholastic hosted environment designated for your school/district. If you need assistance migrating your data, you may purchase database migration services.

STEP 5

Install and Connect

Install or upgrade the Enterprise Client and Media software for Enterprise Edition v1.9 or higher on each workstation. Then connect to your designated Scholastic hosted SAM database and you are ready to begin!

Contact your Account Executive or call 877-234-READ to learn more and get a price quote for your school or district.
