# SRI SCHOLASTIC READING INVENTORY®

**Scholastic Reading Inventory™ (SRI)** is a research-based, computer-adaptive reading assessment program for students in Grades K–12 that measures reading comprehension ability on The Lexile Framework® for Reading.

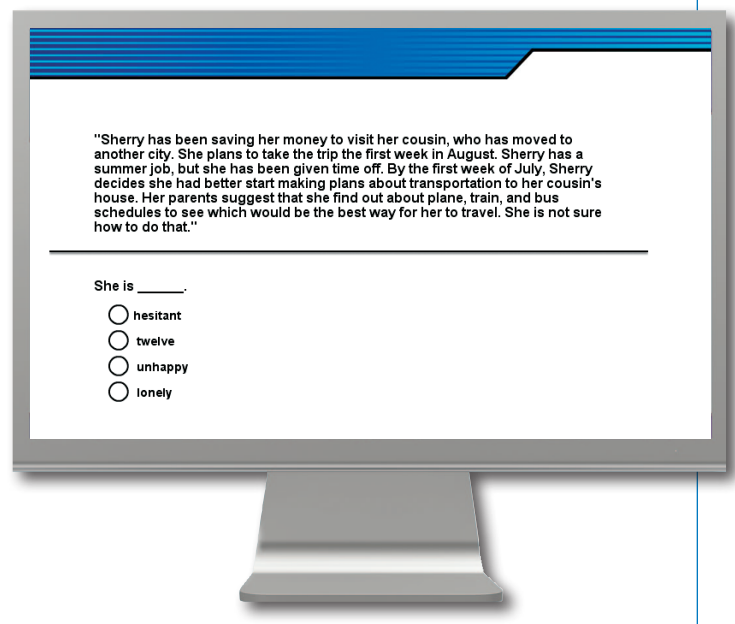

The need for reliable, validated data has never been so important. This fast, scalable assessment provides immediate actionable reports and supports any Response to Intervention implementation with features that support:

- Universal screening
- Instructional placements
- Growth monitoring

As an objective measure of comprehension skills, SRI can be administered independently to any reader regardless of age, grade level or ability. Designed for quick administration, SRI is an effective assessment to identify struggling readers.

- Match student to appropriate leveled reading materials
- Monitor effectiveness of placement, curriculum and instructional plans
- Establish obtainable and realistic growth goal for students
- Forecast outcomes of state tests
- Maintain adequate yearly progress for all students
- Establish obtainable and realistic reading goals

An accurate and highly validated measure of decoding skills and sight-word reading fluency, Scholastic Reading Inventory can help you ensure that the right students are aligned with the right reading intervention.
