The NEW interactive, beginning reading and writing program proven to raise reading scores!

WiggleWorks® New Edition

WiggleWorks combines interactive technology with leveled books and instructional materials to help all primary students become successful readers. This proven effective program provides teachers with the materials to effectively manage their classroom while focusing instruction on the five essential reading areas—Phonemic Awareness, Phonics, Fluency, Vocabulary, and Comprehension.

WiggleWorks engages beginning readers and improves student achievement by focusing on:

READING: WiggleWorks' leveled books and interactive software provide reading instruction in the key areas of Reading First.

WRITING: Both on the software and offline, students write responses to the stories they read or create their own versions.

LANGUAGE SUPPORT: Print concepts are reinforced in multiple forms so students can internalize those concepts and build language skills.

Aligned to Reading First

New Powerful Technology

WiggleWorks software motivates students to learn to read and write by providing each student with a unique scaffolded learning experience. Each grade-level network edition contains 42 interactive English titles and 12 interactive Spanish titles.

Now compatible with
MAC OS X
& WINDOWS
VISTA!

Read Aloud

Students hear the book read aloud and actively read along with the narrator. Accompanying graphics, music, and sound effects enhance students' reading comprehension.

Magnet Board

Students build phonics skills and increase their phonemic awareness as they explore letters and sounds. Special tools let students highlight specific word parts and focus on certain letter and sound combinations.

Read

Students build fluency and comprehension as they practice reading the story on their own. They can listen to unfamiliar words and can record and listen to themselves read.

Write

Students respond to the book with their own writing and illustration. As they write, students can access Story Words, or words they've saved in their My Words list, as well as sentence starters. They can listen to their story as it is read back to them.

My Book

A complete blackline version of the book is available for students to modify and print. Students can change both the text and illustrations to create their own version of the story with a new ending, setting, or character. They can also listen to their version read back to them.
