A personal reading coach for every student.

ReadAbout is an adaptive reading technology system that meets the needs of every student. Whether they require intervention, instruction, or enrichment, **ReadAbout** maximizes students' reading achievement.

By combining the research-based principles of expository text comprehension and vocabulary acquisition with highly engaging nonfiction content and technology that differentiates instruction, **ReadAbout**:

- Improves students' reading comprehension, vocabulary, and content-area knowledge.
- Provides individualized support for all students, including English language Learners.
- Enables students to become accountable, independent readers.
- Offers continuous, informative assessment and reporting.
- Complements any core reading program.

With **ReadAbout**, managing a mixed ability classroom just became easier. It's like having a personal reading coach for every student.

Students receive direct instruction with the following skills and strategies:

- | SKILLS | STRATEGIES |
|-----------------------|---------------------|
| • Author's Purpose | • Visualizing |
| • Main Idea & Details | • Setting a Purpose |
| • Draw Conclusions | • Monitoring |
| • Fact & Opinion | • Rereading |
| • Problem & Solution | • Summarizing |
| • Make Inferences | • Questioning |
| • Cause & Effect | • Repairing |
| • Compare & Contrast | |
| • Sequence of Events | |
| • Summarize | |

Content-Area Knowledge

Students build their content-area knowledge by reading topics in the following subjects:

- SCIENCE**
 - Physical Science
 - Earth Science
 - Life Science
- SOCIAL STUDIES**
 - American History
 - World Culture
 - Geography
- LIFE**
 - Arts & Entertainment
 - Your America
 - Wild Card

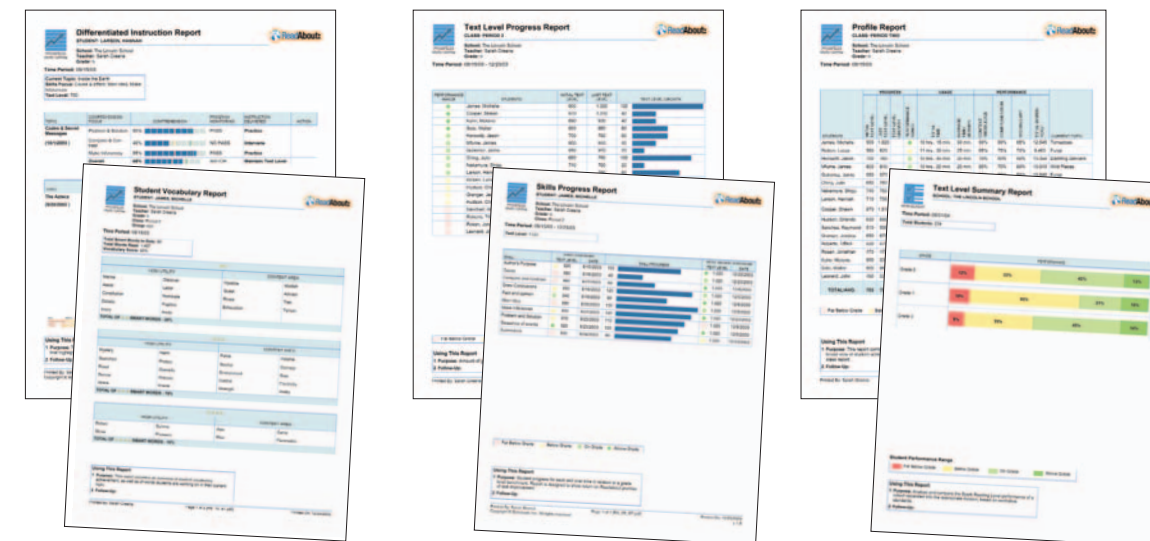

Vocabulary Acquisition

Students are taught high-utility and content-area words through:

- Preteaching of key vocabulary before reading.
- A variety of research-based routines.
- Multiple exposures to words in online passages and print.
- Motivating word games, challenges, and sorting activities.

Continuous (In)formative assessment and real-time reporting.

ReadAbout provides continuous assessment and immediate feedback for administrators, teachers, parents, and students. The program includes detailed, real-time reports that track progress and performance, and facilitate whole-class, small-group, and individual instruction.

ReadAbout assesses students' performance and automatically adjusts the reading level.

ReadAbout easily targets students for intervention and instructional purposes.

The **ReadAbout** Management System makes it easy for teachers and administrators to meet student needs.
