Rigorous teacher-directed instruction and exciting content to engage striving readers.

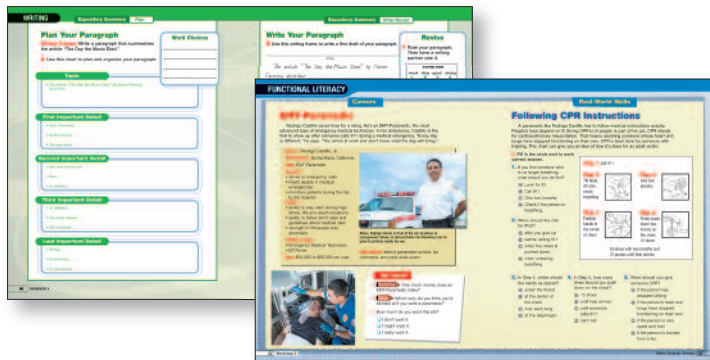

rBook® Teaching System and rBook® Flex

Developed in collaboration with **Dr. Kate Kinsella** and **Dr. Kevin Feldman**, the *rBook* Teaching System features interactive student work texts called the *rBook*, the *rBook* Teacher's Edition, and special resources for assessing students and differentiating instruction.

Read. Write. React. Rigor.

The *rBooks* are engaging, interactive work texts that introduce essential skills and strategies through content-area reading, literature, vocabulary, writing, and grammar instruction. Each *rBook* includes nine Workshops that require approximately one year's worth of teaching, and cover sequenced instruction in comprehension and writing skills.

The *rBook Flex* covers the same skills and strategies with exciting new content for an additional year's worth of content for middle and high school classrooms.
