

## **Reading—Grades 9–10**

*In ninth and tenth grades, reading is purposeful and automatic. Readers are aware of comprehension and vocabulary strategies being employed especially when encountering difficult text and/or reading for a specific purpose. They continue to increase their content and academic vocabulary. Oral and written responses analyze and/or synthesize information from multiple sources to deepen understanding of the content. Readers have greater ability to make connections and adjust understandings as they gain knowledge. They challenge texts, drawing on evidence from their own experience and wide reading. Students continue to read for pleasure.*

### **EALR 1: The student understands and uses different skills and strategies to read.**

**Note:** Each grade-level expectation assumes the student is reading grade-level text. Since reading is a process, some grade-level indicators and evidences of learning apply to multiple grade-levels. What changes is the **text complexity** as students move through the grade-levels.

### **Component 1.2 Use vocabulary (word meaning) strategies to comprehend text.**
