AN INTERVIEW WITH MEG CABOT

What was your inspiration for Abandon?

It was the myth of Hades and Persephone. I came across it in high school. I was hooked right away.... There's something so compelling about a guy who falls so desperately in love with a girl that he's willing to kidnap her and allow the earth to be destroyed rather than give her up, because he's doomed forever to rule over the dark Underworld, and he can't stand to be without her.

Why were you interested in the myth of Persephone?

I think everyone can relate to that scary feeling of falling in love for the first time—you really do think you'd be willing to do anything for that person.

And then there's that sense a lot of teenagers have of never feeling quite like you fit in. I was always longing to find that one special person who would not only understand me, but come and take me away to a place where, not only would I finally belong, but I would be wholly and completely loved.

But that kind of love and longing often turns out to be dark and scary, like it does in the myth of Persephone. And that's how it turns out in *Abandon*, too.

What can you tell us about your character Pierce Oliviera?

Pierce is definitely a heroine who has been through a lot, even though she's only seventeen. She's already died (and been revived), but she can never forget what she saw during the short time she was dead—and of course no one believes her.

Now she's got to face life after death. But she soon learns it is not as easy to start over as she had hoped, especially since the mysterious person that she met while she was dead—John Hayden—won't seem to let her.

Pierce thinks she knows what he wants, and it isn't something she's ready to give him. But he's also the only person who understands what she's been through. At the same time, *she* can't understand *him*. It's almost like he hasn't had any kind of human contact in years...which is dangerous, especially since everywhere Pierce goes, trouble seems to follow, and he seems determined to protect her.

But people can be extremely compelling when they seem dangerous...especially when they're as dark and mysterious as John. Pierce is drawn to him in a way she can't understand. And that might be what scares her most of all.

What do you hope readers will take away from Abandon?

All of the main characters in *Abandon* have actually been abandoned in some way, often because they're unwilling—or unable—to conform to societal norms.

But it's *okay* not to be normal. What some people may consider “different” or even “crazy” may actually be the thing that ends up making you special, and saving you in the end. And the person who scares you most could be the only person who knows what's truly in your heart.

ABOUT THE BOOK

Seventeen-year-old Pierce knows what happens to us when we die. That's how she met John Hayden, the mysterious stranger who's made returning to normal life—or at least life as Pierce knew it before the accident—next to impossible. Though she thought she escaped him—starting a new school in a whole new place—it turns out she was wrong. He finds her.

What does John want from her? Pierce thinks she knows...just like she knows he's no guardian angel, and his dark world isn't exactly heaven. But she can't stay away from him, either, especially since he's always there when she least expects it, but exactly when she needs him most.

But if she lets herself fall any further, she might find herself back in the place she fears the most. And when Pierce discovers the shocking truth, that's exactly where John sweeps her: The Underworld.

DISCUSSION QUESTIONS

1. At the novel's opening, Pierce states, "Anything can happen in the blink of an eye. Anything at all." How does this ominous statement foreshadow the events that transpire in *Abandon*?
2. Consider the classic tale of Persephone and Hades. Though Cabor's adaptation is described as a darkly reimagined homage to this hallmark of Greek mythology, in what ways does *Abandon* remain faithful to her inspiration? In your opinion, what are some of the most important differences between the two stories?
3. *Abandon* is told in first person; how would the story be different if someone besides Pierce were telling it? Do you think changing the point of view would make the story better or worse? Why?
4. Describe Pierce. What makes her a dynamic character? Is she the type of person you would want to befriend? Why or why not? Does she remind you of anyone you know? Does anything about her remind you of yourself?
5. Consider Pierce and John's encounter at the graveyard following her grandfather's funeral; though she is still a child when they first become acquainted, how does this meeting serve as a catalyst for change in each of their lives? Offer specific examples from the text to support your statements.
6. Why is the necklace John gives Pierce such an important gift? What role does it play in protecting her? Consider the necklace's own tragic history—how does Pierce's ownership of it fit into that puzzle?
7. How would you describe Pierce's family? With whom does she seem closest? To what extent are the relationships of these characters shaped by the world around them? To what extent do their relationships shape that world?
8. In *Abandon*, fear both motivates and incapacitates Pierce. Consider how she deals with her fears. In what ways does she acknowledge them? Are her fears justified? Is she able to turn to others for help? What are the consequences of her reactions?
9. Explain the significance of the title, *Abandon*. In what ways does it accurately describe the events and relationships portrayed in the novel?
10. In what ways is Pierce's life similar to that of Persephone's from the classic Greek myth? How are they different? What are some of the unique challenges faced by each of them? Do you think one has a significantly easier life? Explain your answer.
11. How would you characterize the relationship between Pierce and John? Do you feel that it changes over the course of the novel? If so, in what ways?
12. Using the phrase, "This is a story about...", supply five words to describe *Abandon*. Explain your choices.
