Where Books Come Alive!

Weston Woods' goal, for over 55 years, has been to help children fall in love with books – beautiful books with timeless themes and fundamental values. Our DVDs and audio/book packages provide teachers and librarians a variety of media options for bringing good books to all children, whatever their learning style.

According to a report commissioned by Cisco Systems, adding visuals to verbal instruction can result in significant gains in basic or higher-order learning. Students using a well-designed combination of visuals and text learn more than students who use only text.*

Weston Woods' products are not only a familiar learning tool for today's media-savvy children, but they provide a significant opportunity to improve the skills of at-risk children. These multi-modal materials offer the potential to close the achievement gap for struggling readers, many of whom have not had the benefit of being read to at home.

To help you choose just the right materials, we provide Lexile® and Guided Reading Levels for all our Book/CD packages and DVDs. All of our new DVD titles offer these valuable bonus features:

★**Read-Along Feature** – As each word is narrated, it is simultaneously highlighted on the screen, strengthening vocabulary, comprehension and fluency.

★**Closed-Captioned Subtitles and/or Subtitled Captions** – Closed-captioned subtitles include descriptive text for the hearing impaired. Subtitled captions contain simply the spoken narrative and character dialogue for use as a reading tool.

★**Bonus Interviews** – Authors and illustrators share the inspirations and ideas behind their stories.

★**Activity/Study Guides** – Suggestions for before and after viewing activities are designed to enhance the learning experience.

INNOVATION & IMAGINATION

The Story of Weston Woods

By John Cech

An informative pictorial tribute to the leading force in films for children – Weston Woods Studios and its founder, Mort Schindel.

For more than half a century, Weston Woods has been regarded as the leading creative force in the production of films for children. The list of the authors and artists whose works have been transformed from books into films by the studio includes the most significant figures in children's literature – from Robert McCloskey, William Steig, and Maurice Sendak to Margaret Mahy, Simms Taback, Rosemary Wells, and Mo Willems.

In this lush, non-fiction volume – rich with archival photographs, animation cels, historical references, and first-person accounts – readers will get a personal, behind-the-scenes look at the man and creative empire who have garnered nearly every award for distinguished productions in the field of children's media.
