Even "those unfamiliar with the first book" will "enjoy the mystery and adventure" thanks to the right amount of background, while the narrator, "with only slight voice and accent variations, brings to life" the siblings' "constant squabbles as well as the threats by their nefarious relatives." With so much action, the narrator "is almost breathless as he describes vehicle races on the road and along the canals of Venice." All in all, "a fun listen."— *School Library Journal*
