

Issue: 9/11

Phase 2: Balance Your Budget

The new WTC site could include homes, parks, a memorial, stores, and office buildings. How many of these categories do you want to include at the site? How much space do you want reserved for each category? Next to each category, write the percentage that should be used for that item. Remember: Your choices should reflect the desires of the advisors you chose.

Homes _____ percent
Parks _____ percent
Memorial _____ percent
Stores _____ percent
Office Buildings _____ percent

TOTAL: _____ percent*

* The percentages must add up to 100%.

Now illustrate your plans on a pie chart. Use the percentages you named above to draw a “piece” of the pie for each category. If you listed zero percent for a category, you should not draw it on the pie chart.

KEY:

Homes = Blue

Parks = Orange

Memorial = Red

Stores = Yellow

Office Buildings = Green
