# Earth Day Math

Solve these number stories. Show your work and **circle** your answer.

**1** Mr. Brown's class picked up trash at the park. The students found 12 bottles, 4 newspapers, and 3 food wrappers. How many things did they find in all?

**2** Jack planted 28 flowers in a garden. 16 flowers were red, and the rest were yellow. How many yellow flowers did he plant?

**3** Kim turned off lights in 4 rooms in her house. In each room, she turned off 3 lights. How many lights did she turn off in all?

**4** Josh made art to decorate his home for Earth Day. He made 8 pictures. On each picture, he drew 2 trees. How many trees did he draw in all?
