Labeling a Bar Graph

# Sneaker Recycling

Students at Green Hills School made a graph. It showed how many sneakers their school recycled. Follow the directions for labeling the graph.

1. Label the graph to show that the fourth grade recycled **30** sneakers.
2. Label the graph to show that the third grade recycled **20** sneakers.
3. Label the graph to show that the second grade recycled **40** sneakers.
4. Label the graph to show that the first grade recycled **10** sneakers.

How many sneakers did all of the grades recycle altogether? \_\_\_\_\_
