

Name: _____

Earth Day Effects

A **cause** is the reason something happens.
 An **effect** is what happens as a result of the cause.

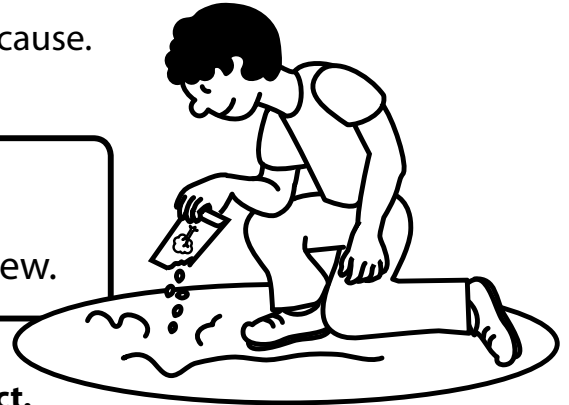

Example

CAUSE:

The boy planted a seed.

EFFECT:

A tree grew.

Draw a line to match each cause with its effect.

CAUSE

(The reason something happens)

1 Cars, trucks, and buses burn gasoline when they are used.

2 Scientists used the Internet to find new places to explore.

3 Wind turns the blades on a machine called a *wind turbine*.

4 Kids fixed their toys instead of throwing them away.

5 Humans send objects, such as satellites, into space.

EFFECT

(What happens as a result)

A A hidden forest full of new plants and animals was found.

B The air becomes dirty.

C Sometimes parts of spacecraft break off or get left behind.

D Electricity is produced without anything being burned.

E Less trash ended up in the garbage can.
