REPRODUCIBLE SKILLS PAGE

What's the Problem?

In this issue of *Scholastic News*, you read about some ways that people can solve problems. Read each sentence below. Underline the problem. **Circle** the solution.

HINT: Sometimes the problem will be at the beginning of the sentence. Sometimes it will be at the end!

Examples:

Lexie forgot her lunch, so she called her mom.

Dylan opened his umbrella because it began to rain.

1. Because some people cannot see, guide horses lead them around.
2. The monkey turned on the light because his owner could not reach it.
3. Guide horses can slip on smooth floors, so they wear sneakers.
4. Riley got a peanut dog because she gets sick when she is near peanuts.
5. The flu can spread easily, but washing hands can help stop it from spreading.
6. Sneezing spreads germs, so kids should sneeze into a tissue or into their elbow.

Now use what you learned in the issue to write a solution to the problem below.

Problem:

Sometimes, kids in school can't get to a sink to wash their hands.

Solution:
