

## KWL EXERCISE

**CHART YOUR PROGRESS**

How do you know that you're learning? You don't have to wait for a pop quiz or final exam to find out. You can check your progress by creating a KWL chart.

KWL stands for **Know–Want to know–Learned. Before you read the Mexico article and map on pp. 6-10 of this issue of *JS*, fill in the first (K) column. Next, brainstorm**

to come up with a few things to list in the second (W) column. Then set the chart aside. After you have read the article, fill in the third (L) column.

You can create your own KWL chart for any topic. If you don't have a book or an article already on hand, you can add a "How to find out" column—for a KWHL chart.

<p>What I <b><u>k</u></b>now about illegal immigration:</p>	<p>What I <b><u>w</u></b>ant to know about illegal immigration:</p>	<p>What I have <b><u>l</u></b>earned about illegal immigration:</p>
<p>What I <b><u>k</u></b>now about Mexico:</p>	<p>What I <b><u>w</u></b>ant to know about Mexico:</p>	<p>What I have <b><u>l</u></b>earned about Mexico:</p>
