For use with pages 12–13 in the April 11, 2011, issue of Scholastic *MATH* Magazine.

## Uncover Our Cover!

You're an expert at percent change. So percent discount should be a snap, right? You just...

- ✓ Find the indicated percent of the original price.
- ✓ Subtract that amount from the original price to find the sale price.

Let's test your percent-discount skills. Circle the word next to the correct sale price. Write that word in the blank above the letter of the problem. You'll find out who is on the cover of our May 2 issue—our final issue of the school year!
