# Cause and Effect

Available  
as a PDF at  
[scholastic.com/scope](http://scholastic.com/scope)

**Directions:** A cause is an event that makes another event happen. For example, consider this sentence: "I kicked the ball, and the ball rolled." The cause is *I kicked the ball*. The effect is *the ball rolled*. Use the graphic organizer below to describe two events from the play in this issue of *Scope*. For each event (or effect), list two causes and one consequence.

**Event #1**

**Happened because:**

**Consequence:**

**Event #2**

**Happened because:**

**Consequence:**
