

Name: _____ Date: _____

The Great Evapo-Race

1. Do Steps 1 and 2 of the Task Card.

2. **Predict:** If you put one container in a warmer place and the other in a cooler place, will water in one of the containers evaporate faster? If so, which one? Or will they both evaporate at the same rate? Record your prediction here.

3. Brainstorm places where you could put the containers—one place needs to be warmer or cooler than the other. List your ideas here, then circle the one you will test.

4. Do Step 6 of the Task Card. Which cup of water evaporated faster?

5. How do warmer temperatures affect evaporation?
