

A NEW APPROACH TO ONLINE PROFESSIONAL LEARNING

Nextpert sets teachers up for success—on **evaluations**, in transforming instruction for **college and career-ready** standards and assessments, and in **preparing their students** for successful futures.

Brought to you by:

Build

Lesson and Assessment Building Tools guide teachers through the creation of high-rigor lessons and application-based assessment items or personalizing existing items from the Nextpert resource library.

Assessment types include selected response, constructed response, extended response, and performance task.

Lesson types include gradual release, close reading, problem solving, and quadrant D.

Lesson and assessment builders guide creation of high-caliber instruction

Steps teachers through creating high-rigor lessons and application-based next generation assessment items. Inline professional learning tips guide teachers through the creation process and build metacognitive understanding.

Customizable lessons and assessment items

A variety of modifiable lessons and assessments selected as the highest quality across grade levels and subjects.

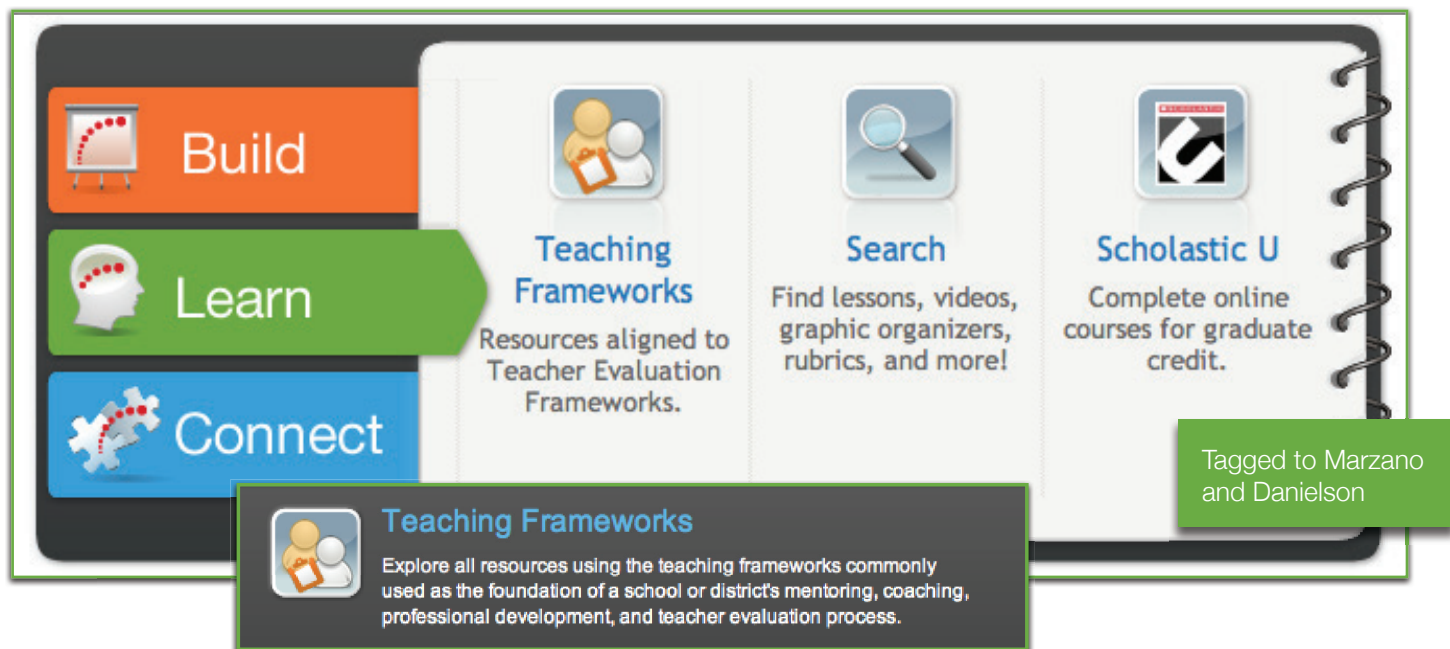

Optimization tools improve lessons and assessments

Powerful tools review the content and prompt teachers through adjustments to increase rigor, make more application-based, build academic vocabulary, and add instructional strategies.

Learn

Teachers can build their expertise—pinpointed to their area of need and on their own schedule—with graduate-level courses and extensive resources in an intuitive, easily-searchable library.

Easily searchable resources help teachers focus their development where they need it most

All resources in Nextpert are tagged to the domains of teacher evaluation frameworks, learning themes, and topics so teachers can quickly find what they need to build their expertise and improve their performance on evaluations.

ADD FRIEND MESSAGE

I have taught at both elementary and middle school. I strive to identify the unique needs of all my students and get to know their interests outside of school. My passion is engaging students with technology to create a digital learning environment. When not teaching, I like to go running and during football season, I am a huge 49ers fan! More >

Implementation support

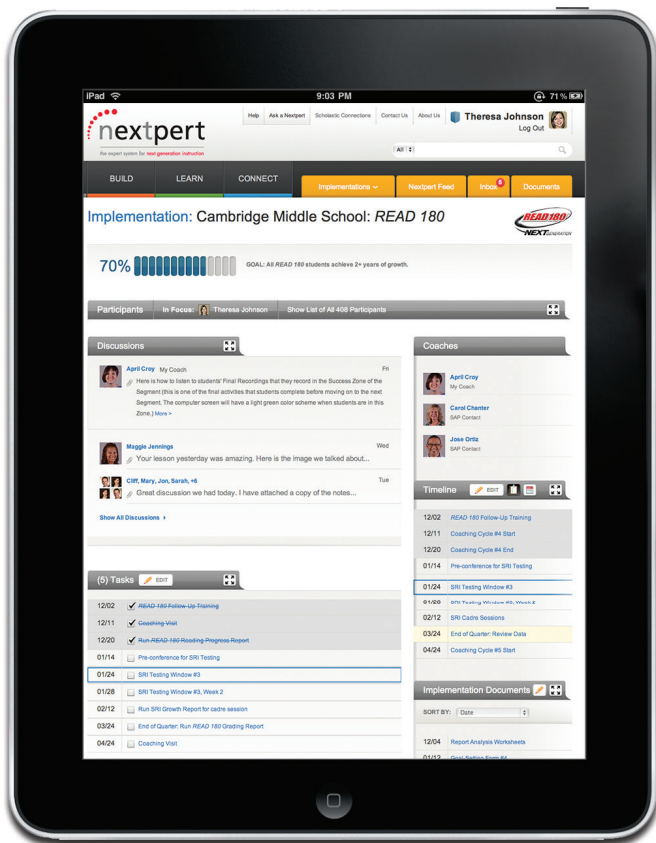

Coaches from the Scholastic Achievement Partners team provide feedback, resources, and assistance to sustain learning between face-to-face visits.

Peer networking

Improves instruction with tools that encourage online collaboration among colleagues.

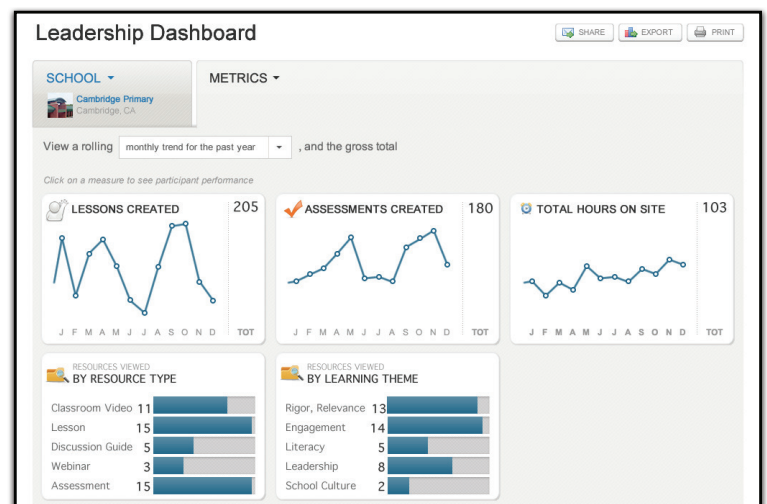

View Progress

Nextpert provides leaders with real-time progress monitoring, instant data reporting, and high-level implementation support that strengthen a district's professional learning initiatives, including those with **Scholastic**, the **International Center for Leadership in Education**, and **Math Solutions**.

Implementation access and transparency

Instant access to implementation documents, resources, and tools to streamline any professional-learning initiative. Leaders and teachers can monitor the progress of their implementation initiatives with time lines, tasks, and direct access to coaches and consultants.

Data-rich displays to monitor goals

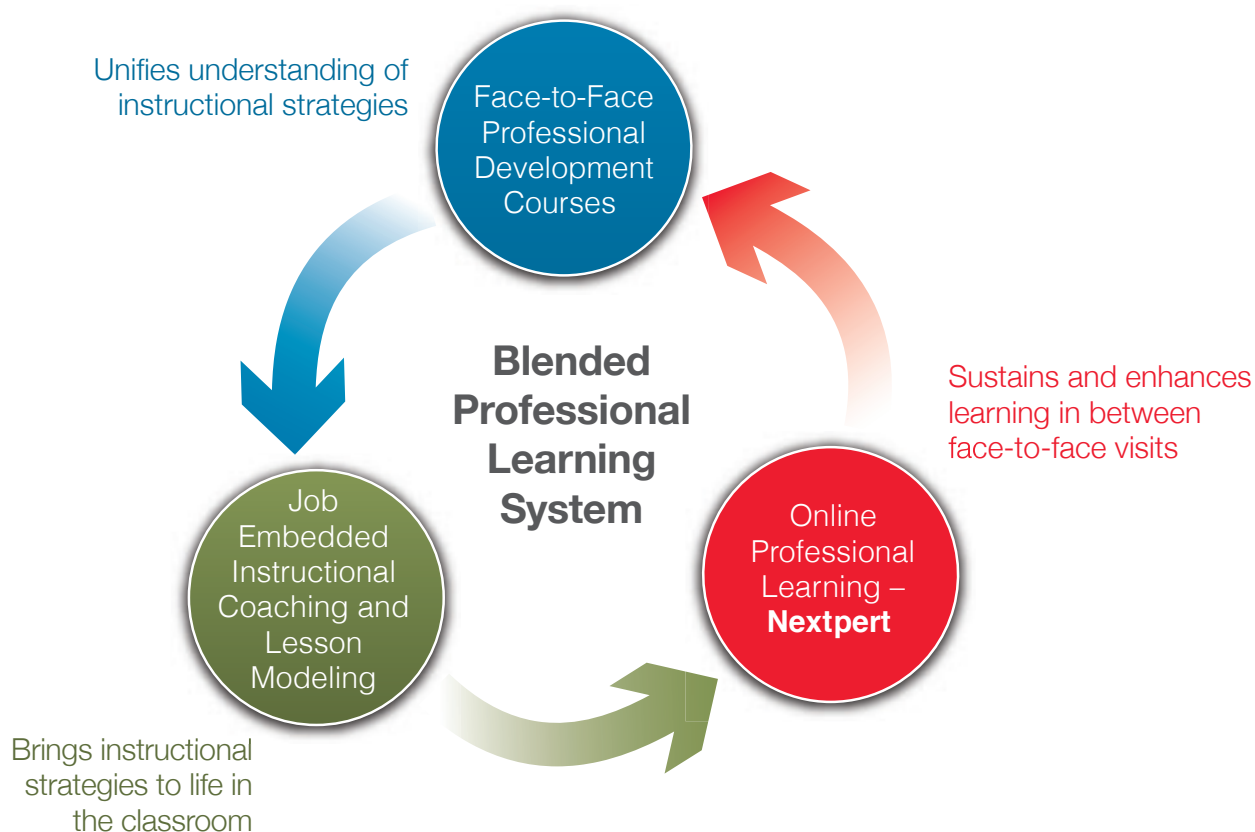

Data reporting at the school- and district-level provides visibility into a district's progress toward goals as part of a professional learning initiative.

Scholastic Achievement Partners brings together the literacy, mathematics, and leadership expertise of three respected organizations to provide unmatched support to districts, schools, and teachers in all 50 states.

We believe that a blended model is the most effective approach to professional learning.

Scholastic Achievement Partners is a team of the country's top leadership and instructional specialists working shoulder-to-shoulder with educators to develop great leaders, foster effective teaching, and transform school performance. We focus on instructional excellence as the driver of student success.
