How to Make a Spin Wheel

1. Cut out the square at the bottom of this page.

2. With the printed side up, fold it in half so the bottom edge meets the top edge. Unfold.

3. Fold it in half again so the right edge meets the left edge. Unfold.

4. Flip the paper over so the blank side is up. Fold one corner to its opposite corner. Unfold.

5. Fold so that the other two corners meet. Unfold.

6. Flip the paper over. Gently push on all four circles. The middle of the paper should poke up in a point.

7. Hold a pencil with the tip pointing up. Balance the folded paper on the tip.
